DETAILED ACTION

This office action is in response to the Request for Continued Examination of February 23, 2007. The amendment of July 24, 2006 has been entered and addressed by the below rejections.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-5, 7-10, 12-19 and 21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original disclosure does not teach of the first nested structure comprising a concentric arrangement of a flexible bellows and a rubberized support. Neither does the original disclosure teach of both the first and the second nested structures comprising a concentric arrangement of a flexible bellows and a rubberized support.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3746

Claim 17 recites the limitation "said pump facilities" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claim. The examiner believes the claim should be dependant upon either claim 15 or claim 16.

Allowable Subject Matter

Claims 6, 20, 28 and 29 are allowed.
